CHANGING THE WAY YOU REACH GUEST EXPERIENCE EXCELLENCE

Emerging technologies help the modern hospitality industry to build innovative client-centric experiences. From comprehensive smart room solutions to data solutions to artificial intelligence, — Intellectsoft is a leading solution provider for guest service-first structures that exceed expectations of its clients with new technological conveniences.

Overseeing our digitalization journey, we explore technologies that already started changing the industry, such as:

- Transformative mobile applications
- Cloud and Hybrid infrastructures
- The Internet of Things and smart rooms
- Intelligent online bookings, self check-in
- AI-driven customer experience
- Indoor positioning, beacons, GPS, Wi-Fi tracking, and more
- One-click payments, loyalty programs

In today's realms, hospitality leaders should allow technologies to predict them with high precision, attuning the guest experience on-the-go to fit personal demands.

Ultimately, our goal is to empower hospitality businesses to accelerate the adoption of new technologies, untangle complex issues that always emerge during digital evolution, and orchestrate ongoing innovation.

One of the biggest achievements we did was to work with one of the major Integrated Resorts in Macau to apply the full spectrum of our unique assets for developing a single-platform solution. After dozens of iterations, our team of experts manages to collaborate closely with our client's team to apply serverless, cloud-based, and edge technologies to create a unique ecosystem.

With 13 years of innovative experience, we have completed over 560 successful projects, including custom solutions for some of the most iconic brands in the world.

Our clients succeed by leveraging Intellectsoft's process of building, motivating, and managing software development teams. Connect with our experts to promptly scale delivery capacity and get an intelligent extension of your team.

Vladimirs Vahromovs,
Chief Executive Officer, Intellectsoft

intellectsoft

"Intellectsoft has been an indispensable technology partner in our digital transformation journey for over three years now. During this time, the company demonstrated a high level of professionalism and agility working on multiple complex projects like multi-functional mobile system development, casino operating system, marketing solutions, and more.

They helped to empower our products by adopting new technologies, untangle complex issues that always emerge during digital evolution, and play a prominent role in our ongoing innovation. Intellectsoft truly
is an integral part of our digital roadmap, and we are happy to work closely with their engineering and product teams to drive innovation beyond."

Melco Resorts & Entertainment

Advantages of Digital Partnership with Intellectsoft

1. Top Tier Talent

We ramped up our engineering powerhouse around your idea to ensure the development process is seamless and transparent

2. Right Engagement Models

With maximum flexibility, our team offers multiple collaboration options, so you choose the one that fits you the best

3. Improved Scalability

You think it, we build it. Creating a strong, durable environment allows us to scale fast with unlimited access to top skills and technologies

4. Reduced Costs

Proven development process, transparent delivery, and pricing models enable us to save up to 50% of R&D costs

5. Performance Acceleration

Our performance-driven development helps us ensure faster time-to-market, add value to core businesses, and achieve significant ROI

ABOUT INTELLECTSOFT

Intellectsoft is a boutique digital transformation consultancy that provides cutting edge engineering solutions for global organizations.
Our mission is to help enterprises accelerate the adoption of new technologies, untangle complex issues that always emerge during digital evolution, and orchestrate ongoing innovation.

As a software development company, we provide strategic and technical support to clients who are looking for a **long-term partner** to help them add value to daily operations and to do business in a more time- and cost-effective way.

We have completed over **620 successful projects,** including custom solutions for some of the most iconic brands in the world, such as Harley-Davidson, Universal Pictures, Bombardier, the London Stock Exchange, Jaguar-Land Rover, Ernst & Young, Experian, Clinique, Eurostar, Guinness, Nestle and more.

The **diversity of our offering (project-based,** T&M, Dedicated teams, Services and Maintenance, and more) allows us to give our customers a single point of contact for all of their development needs.

14 years of expertise speaks for itself as well as our commitment to customers by delivering on promises. Talk to our experts and find out how your business or project can start benefiting from our solutions today.
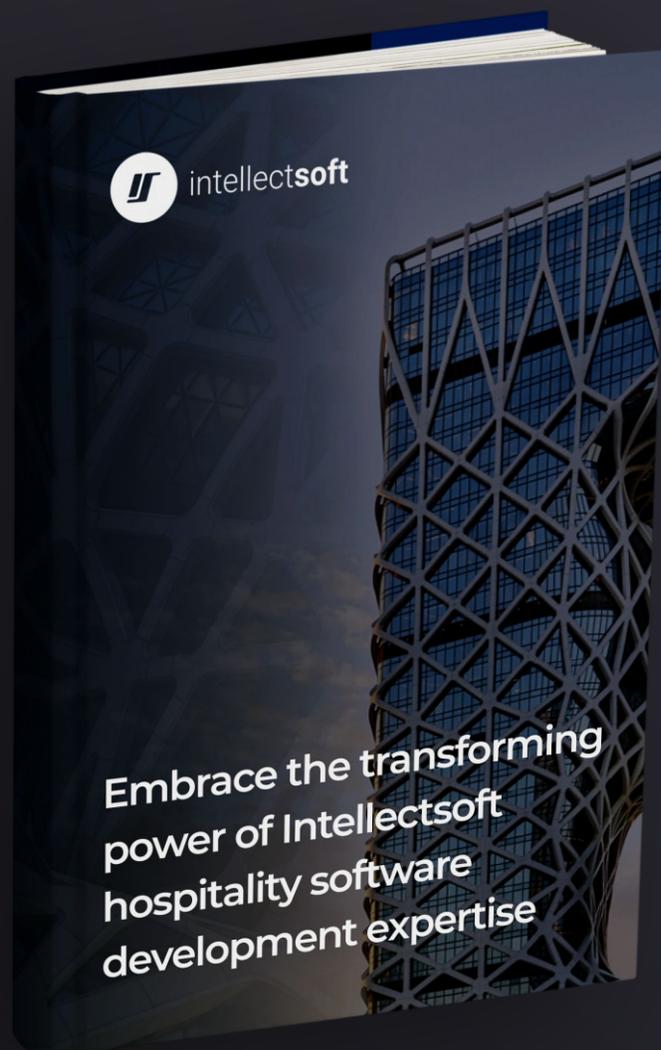

Thank You for Reading

We hope this copy provided a comprehensive overview of the Intellectsoft digital hospitality strategies and capabilities to transform guest experience.

If you have any questions regarding our scope of expertise or need assistance in your hospitality digital transformation efforts, contact our professionals for a consultation.
